

## Declaration of Conformity

Egraflex Steelflon gaskets with inner flange made of 1.4571

We herewith declare that the following material used by Kubo Tech AG

### PTFE-Polymer TFM 1700

- Dyneon complies with the food regulations of the EC Directives, the German Commodities Ordinance and the guidelines of the **Food and Drug Administration** FDA 21 CR § 177 1550
- the State Trade Office of Baden-Württemberg confirms that the **SIGRAFLEX graphite foil** used by SGL CARBON GmbH is harmless with regard to the existing food regulations
- the above-mentioned seal made of this material combination can therefore be regarded as FDA-compliant
- By using an inner flange in conjunction with the PTFE foil on the surface of the seal, contamination of the operating medium can be virtually ruled out.
