

## Declaration of harmlessness

We herewith confirm that the material used by Kubo Tech AG

### Egraflex Steelflon

- are manufactured free of asbestos. The use of asbestos is strictly prohibited. On 1 March 1989, Switzerland introduced a comprehensive ban on the use of asbestos. Today, it covers both the use of asbestos and the sale, import and export of preparations and articles containing asbestos (Chemicals Risk Reduction Ordinance of 18 May 2005, SR 814.81)
- furthermore, no products of animal origin are used in the manufacture, processing and storage of these materials. These materials are therefore **ADI-free** (Animal Derived Ingredient Free) from ingredients of animal origin
- products with the trade name **Egraflex Steelflon** are free of pollutants and plasticizers
- with **RoHS** restrictions (EU 2011/65/EC and 2015/863/EU Restriction of the use of certain hazardous substances in electrical and electronic equipment) and **REACH** requirements (EU 1907/2006: EU Chemicals Regulation)
- Fire protection certified according to **fire-safe API 607**
- BAM** approval
- TA-Luft** according to VDI 2440.
